Methodist Church Sunday

The Church is going steadily forward. Sunday gave a healthy increase in attendance at Sunday School. Prayer meetings are growing larger, the missionary societies are keenly alive, and the splendid congregations attending morning and evening worship are most encouraging.

Superintendent McDonnell has an able corps of teachers and if a visitor or stranger in town you will receive a most cordial welcome at either of the classes. We want you with us.

Morning service at 11 o'clock. Sunday will be Communion Day.

Evening sermon at 7:45.

We have just supplied the church with the new Methodist Hymnals to encourage congregational singing and give every one a part in the service.

XXX

Bible vs. Newspaper.
The following statements as to the relative value of the Bible and the Sunday paper, were made by a Kansas city clergyman: The great appeal in all good newspapers is in their style of makeup. Their stories are brief and well told. But no literature can be compared with the Bible. There are no stories so well or briefly told as those in the Bible. The Bible tells the true facts. It is impartial. And it will be used as an example of true literature as long as we have a civilization, while some newspapers are inclined to color their news and try to mold public sentiment into their way of thinking.

THE DU MOND MALE QUARTET.

Four young men, who not only sing and play well but who are master entertainers as well, constitute the Du Mond Male Quartet.

Under the direction of Joe Du Mond this organization has won a real name among Lyceum and Chautauqua quartets, and one that they are constantly building upon.

They put over programs of life, snap and vim.

They enter into their work with enthusiasm and rare good humor and keep up the pace from the beginning to the end of the program. They love to sing and to entertain audiences,

and this pleasure is so visible that the audience at once enters into the spirit and gets a lot of joy out of it.

There is almost endless variety in the program: vocal and instrumental solos, duets, trios and quartets, readings, comedy sketches and impersonations. Throughout it all there is not a moment that drags.

There will be the college glee songs, the old popular male quartets that we all know and new popular songs, as well as some of the classics, and all of them sung with the dash that is only obtainable where the singers are four talented young men, in love with their work and endowed by nature with the power to express their happiness in song and action.
